(Cell Reports 10, February 17, 2015; 944–956)

In the published version of this manuscript, there was an error in Figure S4. The original scanned image file of the film contained six lanes, with the wild-type sample run in duplicate at either end of the gel. While the sixth lane was cropped out of the image of the film probed with anti-Dnmt3L antibody, it was accidentally included in the image of the film probed with anti-Ezh2 antibody.

The corrected figure is below. The authors regret the error.

Figure S4.

The Proteomic Landscape of Triple-Negative Breast Cancer

(Cell Reports 11, 630–644; April 16, 2015)

In the originally published version of this paper, the panel labels for Figures 3C and 3D were inadvertently switched. The panel labels have been adjusted, and the correct version of the manuscript now appears online.

The authors regret this error.
